HIGH SCHOOL DIPLOMA

Newton North High School (NNHS)

- Level Two Architectural Drafting Major
- CAPSTONE Internship in Architectural Design
- 1st Runner Up CTVE Student of the Year Award 2014

STATEMENT

An architectural designer with a background in education that is fascinated by the intersectionality of architectural design and the learning process in various contexts. I am interested in the investigation of possible responses to the educational issues we know today using a design lens.

SKILLS

Model Making

3D Modelling

Design Thinking

2D Drafting

Critical Analysis

EXPERIENCE

Summer 2018

STUDIO FH ARCHITECTS

Architecture Intern

Worked on schools commissioned by the CottonOn Foundation in Rakai Uganda. Evaluating the impact of these schools in their respective communities and how that can inform the designs for the new schools that are in the design phase. Supported a team preparing construction drawings for new schools commissioned by the CottonON Foundation.

Fall Semester 2017

ENNEAD ARCHITECTS

Architecture Intern

Worked on a research project done by Ennead rethinking refugee communities and their impact on existing cities. Focused on the way architecture can help integrate refugees into and later foster growth and prosperity in their new "homes".

Summer 2013

DRA ARCHITECTS INC.

Architecture Intern

Worked on a drawings and various other materials for the bidding process for various public building renovations in the Greater Boston Area. Assisted in the interior design department on choosing appropriate materials for a renovation project for a School for the Blind and develop drawings for installation.

2018 - Present

THE MUUMBA PROJECT

Co-Founder

Working to design a learning centre in Kapchorwa, Uganda. A space that will challenge the phenomenon of "School" in respect to educational access and how the built environment has fostered a divide between who can attend school and therefore can learn and who cannot.
